	English Language Arts & Math	Grades 3-5	T3	Y	04/04/2016	04/29/2016	8.5	The results of the state tests, Colorado Measures of Academic Success (CMAS) English Language Arts, Mathematics, Science, and Social Studies, help our teachers and school leaders determine specific areas of focus to best meet student needs. These areas of focus become the basis for building Unified Improvement Plans and strategically guide schools in improving learning for all students. Assessment results help us understand a student's specific areas of strength and opportunities for improvement. We use the individual results to help plan students' curriculum in specific classes. For example, if a student did very well on critical thinking tasks, we will include higher level tasks in his/her classwork. If that same student struggled with comparative writing, we might plan to structure his/her writing instruction differently. These tests also help us predict if a student will be successful on the ACT. We are able to put in to place the coursework that will ultimately help students be successful and college and career ready. These assessments help with progress monitoring of our district achievement and growth goals. The achievement and growth data are the foundation of the school accountability system in Colorado.
