

Child Care/Preschool/Head Start Required Immunizations - 2017-18 School Year

Dear parents and guardians of students in Colorado child cares, preschools and Head Start programs:

- Colorado law requires students who attend a licensed child care, preschool or Head Start program to be vaccinated against many of the diseases vaccines can prevent. Your student must be vaccinated against:
 - diphtheria, tetanus & pertussis (DTaP, DT, DTP)
 - polio (IPV)
 - measles, mumps, rubella (MMR)
 - hepatitis B (HepB)
 - haemophilus influenzae type b (Hib)
 - pneumococcal (PCV)
 - varicella (chickenpox)

Vaccines are recommended for rotavirus, hepatitis A and influenza, but are not required.

- The number, timing and spacing of the required vaccine doses is set by the Centers for Disease Control and Prevention's Advisory Committee on Immunization Practices (ACIP). You can view a parent-friendly version of the current ACIP vaccine schedule for children 0 - 6 years of age at www.cdc.gov/vaccines/parents/downloads/parent-ver-sch-0-6yrs.pdf.
- Please take your student's updated vaccine record to school every time he or she receives a vaccine.
- If your student cannot get vaccines because of medical reasons, you must submit an official *Immunization Medical Exemption Form* to your school, signed by a healthcare provider licensed to give vaccines. You can get the form at www.colorado.gov/vaccineexemption.
- If you choose not to get your student vaccinated according to the current ACIP schedule for religious or personal belief reasons, you must submit a non-medical exemption to your school. Non-medical exemptions must be submitted at ages 2 months, 4 months, 6 months, 12 months and 18 months. You can either submit the state health department's non-medical form (online or paper copy) for inclusion in the Colorado Immunization Information System (CIIS), provide a paper copy of the CDPHE non-medical exemption form to your student's school, or submit a signed non-medical statement of exemption to your student's school. Such a statement should include the following information: student's full name, age or date of birth, date the exemption was submitted, the vaccines declined, and which type of non-medical exemption is being taken (personal belief or religious). If you choose to include your student's information in CIIS, you may opt your student out of CIIS at any time. Your student's school may ask you to also provide them with a paper copy of the non-medical exemption if you submit online. You can get online and downloadable versions of the state health department's non-medical exemption form at www.colorado.gov/vaccineexemption.
- Some parents, especially those with students who have weakened immune systems, may want to know which child cares, preschools and Head Start programs have the highest percentage of vaccinated children. Schools must report vaccination and exemption numbers (but not student names or birth dates) to the state health department by December 1 every year. Vaccination and exemption rates will be posted on the state health department website beginning in Spring 2017.
- You may want to talk to a healthcare provider licensed to give vaccines or a local public health agency (LPHA) about which vaccines your student needs or if you have questions. You can read about the safety and importance of vaccines at www.ImmunizeForGood.com and www.colorado.gov/cdphe/immunization-education.
- If you need help finding a healthcare provider, or finding free or low-cost vaccines, contact your LPHA, or call the state health department's Family Health Line at 1-303-692-2229 or 1-800-688-7777. You can find your LPHA at www.colorado.gov/pacific/cdphe/find-your-local-public-health-agency.
- Please share Page 2 of this letter with your student's healthcare provider as it provides helpful information about vaccines required for school entry per Colorado law.

Sincerely,

Colorado Immunization Branch | Colorado Department of Public Health & Environment
