March 23, 2017

All juniors across the state are scheduled to participate in the SAT assessment on April 11, 2017. Prior to taking the SAT, students will be asked to complete a voluntary Student Data Questionnaire that will collect information about their grades, interests, intended major and college plans, among other things. Students are not required to answer this questionnaire, but those that fill it out will have the opportunity to opt in to the College Board's [Student Search Service](#). This service allows participating colleges and nonprofit scholarship organizations to better find specific student groups to share information about the opportunities their organizations provide. The College Board will only share data with eligible colleges, universities, and scholarship & educational opportunity programs that have signed a license agreement, and consistently monitors their use of student information for compliance. Student scores are not shared through the Student Search Service, and students may cancel their participation in this service at any time.

A copy of the Student Data Questionnaire has been included to give parents an opportunity to review and discuss the questionnaire with their child prior to the April 11th test date. Students and families have complete discretion regarding any voluntary information they provide. Completion of the Student Data Questionnaire and participation in Student Search Service are optional and voluntary for all students. Information on the College Board Privacy Policy can be found at collegboard.org/privacy-policy.

If you have any questions or concerns regarding the Student Data Questionnaire, please contact your school counseling department for further assistance.
