District/School Required	Measures of Academic Progress (MAP) Reading & Mathematics	Grades 9-10	S1	y	08/17/2020	09/18/2020	1	MAP is a computer adaptive test designed to give teachers real-time instructional information on students, as well a national comparison. Teachers use the formative growth and achievement data throughout the year to develop targeted instructional strategies and to plan school improvement. MAP test results are reported immediately after completing each test and help educators make student focused, data-informed decisions. These assessments help with progress monitoring of our district achievement and growth goals. They also predict performance on CMAS and college-readiness assessments.

	Social Studies <i>**Social Studies: schools are selected on a sampling basis once every third year.</i>	Grade 11	S2	Y	04/12/2021	04/30/2021	4	The results of the state tests, Colorado Measures of Academic Success (CMAS) Science and Social Studies, help our teachers and school leaders determine specific areas of focus to best meet student needs. These areas of focus become the basis for building Unified Improvement Plans and strategically guide schools in improving learning for all students. Assessment results help us understand a student's specific areas of strength and opportunities for improvement. We use the individual results to help plan students' curriculum in specific classes. For example, if a student did very well on critical thinking tasks, we will include higher level tasks in his/her classwork. These assessments help with progress monitoring of our district achievement and growth goals. The achievement and growth data are the foundation of the school accountability system in Colorado.
