#### FINANCIAL REPORT FOR THE QUARTER ENDED June 30, 2020 (Unaudited)

This report provides an overview of the financial operations of district funds for the fiscal year ending June 30, 2020. Dollar amounts reported are from the financial records of the district and are unaudited. The district's complete, audited financial statements will be published in the Comprehensive Annual Financial Report (CAFR), which will be presented to the Board of Education in December 2020. The discussion below focuses on variances between balances and percentages of the current fiscal year compared to the prior fiscal year.

The statements of revenue and expenditures for each fund include the original Adopted Budget and the current Annual Budget for comparison purposes. The current quarterly Annual Budget presentation incorporates supplemental budget appropriations and budget rollovers from the previous year and budget transfers. These budgetary practices are allowed by the policy in various operating areas.

At the close of the 2019–2020 school year, the district was managing the impact that COVID-19 was having on the school district. All students, teachers, employees, and school programs were impacted when Colorado's government enacted a "shelter in place" order in March 2020. All inperson instruction was cancelled and the district transitioned to remote online learning for the remainder of the school year. Additionally, all student activities, sports, graduations, and summer programs were halted. During this time, the district formed a Restart Task Force that worked all summer to develop a return to school plan. To assist with the deteriorating impact that COVID-19 was having on the global and local economy, the federal government enacted the Coronavirus Aid, Relief, and Economic Recovery Act (CARES Act) at the end of March 2020. The district was allocated \$6.6 million of this one-time funding from two grants, the Coronavirus Relief Fund (CRF) and the Elementary and Secondary School Emergency Relief Fund (ESSER). Both grants were intended to help the district comply with state and local public health orders, plan and implement remote learning, develop recovering plans from lost learning time, meet mental health needs, purchase sanitation supplies, and provide other services necessary to limit the transmission of COVID-19. To account for this new one-time revenue, the Board of Education (Board) approved a supplemental budget in the Designated Purpose Grants Fund on June 25, 2020. The district has worked with its auditors to make certain that the use of federal dollars from the CRF grant used for implementing district remote learning during the spring complied with all grant requirements. The financial statements of the General Fund and the Designated Purpose Grants Fund reflect the impact of using \$4.9 million of the \$6.6 million awarded grant dollars. The remaining dollars will be spent in fiscal year 2020–2021.

#### **GENERAL FUND**

Total revenue for the fourth quarter ended June 30, 2020, totaling \$164.9 million, or 100 percent of the budget, was higher than the prior-year by \$5.9 million. Property tax revenue was higher by \$5.1 million due to higher assessed valuation for the calendar year 2019 and the timing of collections. The increase of specific ownership taxes by \$1.0 million is a combination of slower collections in the previous year and stronger new car sales this fiscal year. Revenue from investment earnings, totaling \$351,352, was approximately \$2,100 higher compared to the prior year; however,

interest rates currently have declined and are not forecasted to recover in the immediate future. Other local revenue is lower from the prior year, mainly due to the one-time sale of excess IP addresses and lower collections of fees due to school closure at the end of the school year. State equalization of \$67.6 million, or 94 percent of the budget, is \$0.5 million higher primarily due to the change in total program funding, including the buy-down of the negative factor from the state. State funding for the education of students with disabilities was higher by \$0.5 million compared to the prior year, partly due to serving more students and additional state funding for Tier B students. Transportation revenue increased by \$0.3 million due to a combination of additional routes related to the school start-time changes and a slight increase in special education participation. Other state revenues increased primarily due to the receipt of the one-time full-day kindergarten grant of \$252,012 and an increase of approximately \$95,000 for Vocational Education revenue due to timing of funding for fiscal year 2019. Interest allocations to capital projects, nutrition services, risk management insurance reserves, and extended day care funds have been suspended during the 2019–2020 fiscal year due to budget constraints. Federal grant revenue is lower compared to prior year due to lower Title grant allocation.

Total expenditures and transfers of \$163.9 million represent 93 percent of the budget. Expenditures decreased by \$0.9 million compared to the prior year, primarily due to the transfer of salaries, benefits, and supplies that were eligible for the CARES Act that reduced the amount of expenditures in the general fund by \$4.9 million. Other expenditures consist of inter-fund transactions from Transportation and Print Shop. The Charter schools expenditure increased primarily due to Colorado Revised Statues (C.R.S). 22-32-108.5 and district's board plan for sharing mill levy override revenue with Charters.

Beginning July 2018, C.R.S. 24-51-413 requires the state to contribute \$225 million each year to PERA, and the district is required to report the allocated portion. This can be seen on the Statement of Revenue, Expenditures, and Changes in Fund Balance under the reconciliation to GAAP basis, on-behalf contribution to PERA retirement plan for \$2.6 million.

Asset changes on the balance sheet when compared to the prior year include a decrease of cash and investments by \$0.9 million. The majority of the decrease occurred in cash due to the spending down of fund balance; however, allocating part of the CARES Act money in 2019–2020 directly offset the majority of the decrease in fund balance. Taxes receivable had an increase of \$0.6 million due to the higher assessed valuation and the timing of collections. The \$50,000 deposit is for the Career and Technical Education property. Overall liabilities increased by \$0.4 million, consisting of a decrease in accounts payable offset by an increase in accrued expenses and an increase in unearned taxes, and a decrease in other unearned revenue.

The total fund balance at the end of the fourth quarter increased from \$27.7 million to \$28.7 million. The net effect in the fund balance compared to the prior year was primarily the result of CARES Act expenditures that were eligible to be transferred to the grant fund, which are now shown in the assigned one-time spending related to CARES Act in the amount of \$4.9 million. This amount will be used in fiscal year 2020–2021. Other fund balance categories include an assignment for budget carryovers of \$1.5 million and an assignment for subsequent year expenditures of \$0.9 million for one-time spending for student needs in fiscal year 2020–2021. Due to the spending suspension of White Paper 2.0, the assigned one-time spending for students needs has been eliminated. Unassigned-per board policy is \$7.4 million. The unassigned-unrestricted fund balance has increased to \$8.2 million which will be used in fiscal year 2020–2021 to cover the state's underfunding of the district via the budget stabilization factor and unfunded COVID-19 related expenditures.

The 2017–2018 One-Time White Paper 2.0 Spending Plan, presented on page 21 of this report, is a summary of project-to-date expenditures and the budget of the *Anticipated Funding Needs—Short- and Long-Term White Paper 2.0.* The multi-year budget for this plan totaled \$11.8 million. Expenditures totaling \$3.0 million for the fiscal year 2020 of the one-time plan have been spent as of June 30, 2020. All spending during this fiscal

year is within the scope and intent of the White Paper 2.0 Spending Plan. As noted above, the Board has repurposed the remaining \$3.3 million of the One-Time White Paper 2.0 Spending Plan to the unassigned fund balance.

#### **OTHER FUNDS**

In the **bond redemption fund**, principal and interest debt service payments of \$27.6 million were made for the 2010 advance refunding General Obligation (G.O.) bonds, 2013 G.O. bonds, 2014 G.O. bonds, 2015 G.O. bonds, and 2019 G.O. bonds. A majority of property tax for the current fiscal year received in the spring 2020 replenished the \$32.6 million fund balance for cash flow needs for future principal and interest payments. The \$315,562 of interest earnings was a result of stabilized rates; however, interest rates currently have declined and are not forecasted to recover in the immediate future. The investments are held and managed by a trustee bank.

The **building fund** accounts for the funding and expenditures related to the November 2018 voter-approved bonds for building improvements of \$298.9 million. Interest earnings of \$10.5 million was higher than the prior-year by \$3.1 million due to the bond proceeds being professional managed for the full fiscal year. The district incurred fiscal year-to-date bond project expenditures of \$40.8 million. These expenditures included \$2.8 million in architectural fees and \$10.8 million construction costs for the new Newton Middle School; \$1.3 million in architectural fees and \$4.5 million in construction costs for the new elementary school on the Ames campus; \$4.6 million for turf fields at the middle and high schools; \$3 million for the Highland early childhood education center; \$1.5 million for concrete and asphalt repairs and improvements; \$1.2 to remodel school kitchens; and \$1.1 million for design and initial construction costs for the new elementary school on the Franklin campus. The remaining expenditures occurred at various locations throughout the district and included security and technology upgrades, new furniture, and playground equipment. The anticipated negative impact of the COVID-19 on the building projects is still unknown. Capital expenditures are expected to increase in subsequent years as additional projects begin.

The capital projects fund's expenditures amount to 104 percent of the fund's annual budget, an increase of 46 percent compared to the prior year, due to the completion of 2015 bond projects. The major expenditures through the fiscal year included six new buses, new playground equipment at The Village North, and Field Elementary School, new turf at the Whitman facility, and the new servers and firewall for the district. With the closing of schools in March of 2020 due to COVID-19, other facility projects were started that were scheduled for fiscal year 2021. A total transfer of \$2.4 million from the general fund provides funding. Other revenue included donations for the playgrounds at The Village at North and Field Elementary School and donations from Littleton Soccer Association (LSA) for the turf at Options. As previously mentioned, the allocation of interest for this fund is suspended for the 2019–2020 fiscal year.

The designated purpose grant fund accounts for federal, state, and local grants, are restricted as to the type of expenditures for which the grants may be used. A majority of the grants awarded to the district are reimbursable grants, requiring the district to request reimbursement for expenditures. State grant revenues were higher primarily due to a new security grant, School Access for Emergency Response (SAFER) for communication hardware, software, and training. Due to the pandemic, the CARES Act was passed by Congress and signed into law by the President. Under the CARES Act, the district was awarded \$6.6 million in Federal grant dollars through the CRF and the ESSER grants. As previously noted, the Board approved a supplemental budget appropriation in June 2020 to allow these grants to be used in fiscal year 2020. Expenditures increased mainly due to CRF grant used for implementing district remote learning during the spring. Other expenditures include spending from the Reading to Ensure Academic Development Act (READ), Individuals with Disabilities Education Act (IDEA), SAFER, and Medicaid grants.

The **extended day care program fund** reports a fourth quarter loss of \$1,007,935 compared to an increase of \$440,788 reported in the fourth quarter of the prior year. Revenue is lower due to the start of full-day funded kindergarten in the General Fund; therefore, eliminating the tuition-

funded full-day kindergarten programs in this fund. The impact of COVID-19 significantly affected the fund balance of this fund by causing revenue to decrease due to the summer program being cancelled and tuition being refunded while salaries and benefits were still paid. As previously mentioned, the allocation of interest for this fund has been suspended for the 2019–2020 fiscal year. Total expenditures of \$4.2 million are also lower compared to the prior year with lower salaries and benefits related to the full-day funded kindergarten. Other expenditures were slightly lower. The transfer to the General Fund related to overheard costs were suspended this year to assist with the COVID-19 response.

The **nutrition services fund** operations resulted in a \$48,512 net loss in the fourth quarter compared to a \$103,847 gain in the prior year. Revenue is lower due to the closing of schools in March due to COVID-19. The impact of lower revenue was partially offset by the CARES Act funding revenue of \$322,157 recorded in the federal aid and donated commodities as well as the Emergency feeding donations of \$54,944 recorded in the transfer from the general fund. As previously mentioned, the allocation of interest for this fund has been suspended for the 2019–2020 fiscal year. Overall expenditures are lower compared to the prior year. The Colorado Department of Education (CDE), School Nutrition Unit has administered the National School Lunch Program (NSLP), School Breakfast Program (SBP), Summer Food Service Program (SFSP) and Emergency Feeding efforts throughout the COVID-19 pandemic. Through CDE, the CARES Act reimbursed all meals from March 2020 through September 2020.

In the **risk management insurance reserve fund**, operations resulted in a \$291,426 net gain compared to a \$551,768 loss in the prior year. This fund receives the majority of its funding from a transfer from the general fund. As previously mentioned, the allocation of interest for this fund has been suspended for the 2019–2020 fiscal year. The decrease in expenditures is primarily due to lower workers' compensation insurance payments and less claim activity.

The **student athletic, activities, and clubs fund** reflects extracurricular activities during the school year. Revenues from student fees, gate receipts, clubs, and a transfer from the general fund totaling \$4.5 million. The lack of fees and other revenues collected in the fourth quarter in this fund are due to the cancellation of spring sports and activities caused by COVID-19 and required an additional transfer from the General Fund at year-end. Overall, expenditures exceeded revenues by \$226,403 compared to \$247,014 in the prior year.

The two **charter schools** are reported as component units, separate entities from the district, and are accounted for as a separate fund. Revenues include program funding from the state, the supplemental mill levy override funding from the district, capital construction funding, as well as revenue from grants, fees, tuition, and gifts to schools. Beginning in fiscal year 2020, C.R.S. 22-32-108.5 required the district's board have a plan for sharing mill levy override revenue. Through the fourth quarter, the charter schools received a combined \$1,109,921. The CARES Act funds were shared on a per-pupil basis with the Charters resulting in a combined total of \$435,397. The combined fund balance reserve of \$3.8 million includes a TABOR reserve requirement for the charter schools, totaling \$311,400, as well as Governance Board-approved assignments of fund balance. Beginning July 2018, C.R.S. 24-51-413 required the state to contribute \$225 million each year to PERA, and the charters are required to report the allocated portion. This can be seen on the Charter's Statement of Revenue, Expenditures, and Changes in Fund Balance under the reconciliation to GAAP basis, as on-behalf contribution to PERA retirement plan.

In conclusion, district financial operations are following the budget, and spending plans are comparable to historical financial trends for the fourth quarter.

Josetha Lynn

Respectfully submitted,

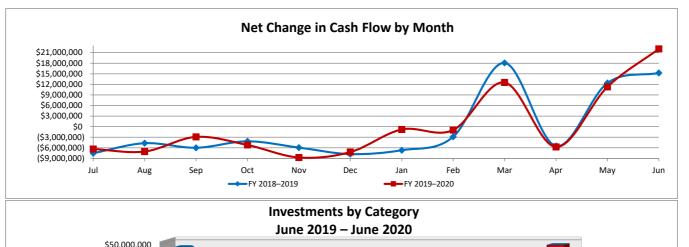

Amn Villamar Donna Villamor Chief Financial Officer

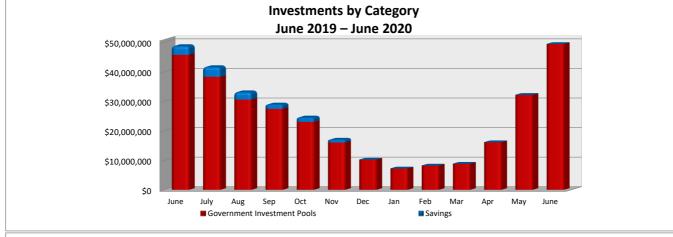

Jonathan Levesque Director of Finance

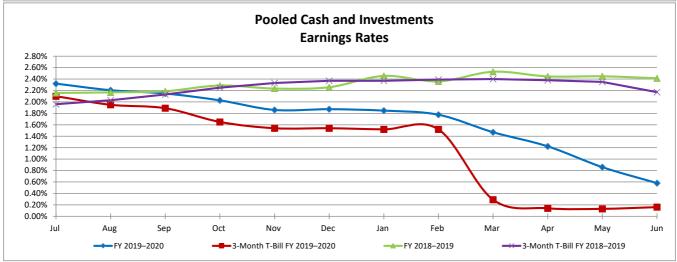

The general fund is used to account for all transactions related to the district's operations except those required to be accounted for in other funds. It is the largest fund of the district.

## **Balance Sheet**
