## Advanced Placement Reality Check

This worksheet is meant to engender some serious thinking on your part about your schedule for next year. We would like you to think about your priorities and how you would like your life to unfold next school year. We encourage you to stretch academically, to participate in other activities and to be healthy. Answer these questions truthfully, talk to your parents, teachers, counselors, peers, and do some research about what particular schools want to see. We sincerely encourage you to get all the information that you can and then make the best informed decision for you.

### Questions to consider and discuss before I register.

Before you meet with your counselor, be sure that you have seriously considered the following questions and discussed them with your parents. While no one expects to be overwhelmed by too many commitments, it does tend to happen, even to the best of us.

-  Am I taking the course(s) for the right reasons?
-  Do I have enough time in the day for all of my commitments?
-  How committed am I to doing well in this course if it proves a challenge for me?
-  Have I considered the cumulative effect of taking multiple honors/AP courses?
-  What will happen if this course load is difficult and I cannot change my schedule?
  -  Would I be willing to adjust hours or give up a job?
  -  Would I be willing to drop a sport or activity?
  -  Would I be satisfied with a grade less than a B?
