Calling all budding Kings and Queens to Colorado's premier chess program! Our creative curriculum brings humor, stories, and "chessercizes" to help students apply lessons on and off the board. Chess education has been shown to help kids improve logic, math, and reading comprehension skills. Students calculate options and evaluate consequences, learning to overcome obstacles and practice visualization techniques to think ahead. Whether playing in our scholastic tournaments or with family and friends, kids love learning with PALS because *we make chess FUN!*
