SECRET AGENT LAB

Ever dream of becoming a secret agent? We'll start with the basics: From decoding messages to metal detectors and night vision, students have the opportunity to check out spy tech equipment and take home lots of gadgets like spy glasses! Step into the shoes of a detective as you uncover the science involved in evidence gathering and analysis! Figure out the science of forensics in a hands-on look at crime scenes! Become a super spy and learn clever ways of performing tasks as we take a hands-on investigation of the science that spies use!
