SUMMER HIGH SCHOOL BOOT CAMP

Your Child is invited to participate in a High School Boot Camp for Algebra I. Your child is receiving this invitation based on his/her progress in 2018/19 school year, or due to teacher recommendation. This program is designed to shore up existing learning gaps in a fun, safe, and interactive learning environment.

Research suggests that Algebra I is a gate keeper for students who want access to higher level math courses. This two week long program could help students feel prepared to tackle high school Algebra by front loading the foundational concepts of Algebra I.

SUMMER HIGH SCHOOL PREP: MATH FOR INCOMING 9TH GRADERS

MON-FRI, JULY 22 - AUGUST 2
